StockPulse — Documentation Pack

This folder is the **written documentation** for StockPulse (inventory idea). Language: **English only**.

Documents (replace set)

#	File	What it is
1	`StockPulse_Master_Requirements.pdf`	Master Requirements Document
2	`StockPulse_PRD (1).pdf`	Product Requirements Document (PRD)
3	`01-TRD.pdf`	Technical Requirements Document (stack, login/logging, hosting, Git, Firebase as database)
4	`02-FLOW-DIAGRAM.pdf`	Real flowchart / flow diagram (shapes: Start oval, process boxes, Yes/No diamonds)
5	`03-BRAND-KIT.pdf`	Current brand look: colors, typography, headings (no fixed logo yet)
6	`04-SCHEMA.pdf`	Database (Firebase), data models, access control, storage / Blob
7	`05-TESTING.pdf`	Unit testing, parallel testing, verification & validation

Skipped for now (by request): Email (Resend), DNS / domain, paid-plans PDF, Gmail auth, clipping/transcribe modules.

Not in this pack as a migration how-to: SQLite → Firebase step-by-step. Database document describes **Firebase** as the chosen database.
